LIBERAL LEADER, GOVERNMENT WHIP, PREMIER IN CLASH

Clash between John J. Bowden, Liberal house leader, and J. H. Brown, A.C. Edmon, government whip in the legislature, followed proceedings in the house on Monday. The two members, both with Irish blood in their veins, butted heads during a debate on the speech from the throne by Mr. Brown.

Mr. Brown also had a brush with Premier William Aberhart. In the course of his remarks dealing with the Premier's statement over the air at Calgary on Sunday, Mr. Brown urged the Premier to "be frank".

The Premier wondered if this suggested that he had not been frank and after a brief exchange, Mr. Brown withdrew his statement.

TO SAVE STRIPS
Later, Mr. Brown, after dealing with the recent changes that the provincial cabinet, declared that there were two types of men who go into a public life, one making progress by reason of long and faithful service and the other the type that caused the leader to be glad to get rid of him.

Mr. Brown said that he was not going to save strips.

Mr. Brown, Mr. Brown, up to his feet calling for order and declaring that he was not going to save strips, and no member, by any means, could impede service.

Mr. Brown: "You interfered in the house." "Last session was the first time I ever heard the word 'interfere' used in the house."

Mr. Brown: "It will come again necessary."

ASKS WITHDRAWAL
Mr. Speaker Peter Dawson here intervened and asked Mr. Brown to withdraw.

Mr. Brown: "I don't have to withdraw a general remark."

Mr. Speaker insisted on a withdrawal and Mr. Brown withdrew.

Later Mr. Brown, who had been referring to Mr. Brown, declared that "I like him very much, but he is an awful nuisance."

Later a reference by Mr. Brown to "interfere" had to be withdrawn.

Mr. Brown also ran afoul of Mr. J. H. Ash, Social Credit member for Olds.

Mr. Brown was congratulating his colleague, J. H. Tremblay, on his election for Grand, and declared that as he was a farmer and a good farmer, and that he was a valuable addition to the House.

Mr. Ash was up on his feet immediately.

"Did you say there were not any good farmers in the House?" he said.

He was assured Mr. Brown did not say this and the Liberal House leader proceeded.

SENT FROM PROVINCE
Mr. Brown and Mr. Brown later had several more brief exchanges, which charged with vitality an atmosphere that otherwise would have been inclined to dull.

Mr. Brown charged that since the present government took office \$140,000 in cash and \$200,000,000 in bonds had been sent from the province.

Charges were made by Mr. Brown that several deaths had taken place in Calgary among Chinese residents due to malnutrition and that it was "a disgrace to allow such conditions to prevail."

SUMMER FAIR PRIZE LIST IS GIVEN APPROVAL

Approval was given Monday afternoon by the directors of the Edmonton Exhibition Association to the Summer Fair prize list totalling \$14,000, being an increase of approximately \$800 over the money voted for this purpose last year.

An additional fee class in the heavy draught horse section, and lengthening of the period spent on the educational aspect of the summer department as well as increases in the prize money for the various school exhibitors is accountable for the increase.

It was also decided to institute the wearing of smocks by exhibitors during the showing of animals at the summer fair.

Calgary Will Let Oil Firm Drill Inside City Limits

CALGARY, March 2.—Dei Monica Oil Company last night was granted a permit to drill an oil well inside the Calgary city limits, providing that neither city nor provincial regulations are transgressed.

The proposal to drill the well, the first ever done here, met with no objections from the town planning committee, City Engineer A. S. Chapman reported. He noted the oil company officials they would have to take out a building permit.

Decrease Shown In Birth Registrations

OTTAWA, March 2.—A decrease of five per cent was shown in births registered in 1936 over 1935, according to figures reported today. Increases of four per cent were shown in deaths and 10 per cent in marriages.

Registrar's birth numbers 6,394 against 6,625 in January last year, deaths 4,678 against 4,885 and marriages 2,518 against 2,565.

WESTERNERS OUTSPOKEN IN COAL DEBATE

Prairies Pay Both Ways to East Manufacturers, Says Dr. Young

OTTAWA, March 2.—No charge to introduce a bill to the principle of coal subsidies. Hon. T. A. Cresser, minister of mines and resources, said the house of commons yesterday.

He was asking for \$25,000 for the purpose, an increase of \$300,000. The increase was based upon the cost of subsidies last year, when the amount voted did not prove sufficient.

R. B. Bennett, Conservative leader, declared that but for the coal subsidies during the 1930-1935 period the Island of Cape Breton would be in very bad circumstances and no western coal would move farther east than Swift Current, Sask.

\$307,000 IN ALBERTA
During 1936 subsidies on Nova Scotia coal amounted to \$1,273,000. New Brunswick, \$115,888, Alberta, \$307,000, Ontario, \$163,000, Saskatchewan, \$113,000, and British Columbia, \$113,000, the minister said.

Nova Scotia coal covered by the subsidies amounted to 1,681,000 tons which went into Quebec and Ontario. New Brunswick and Nova Scotia produced 280,000 tons to British Columbia and 100,000 tons to Saskatchewan.

Western Canada, objected Dr. A. M. Young (Lab., Saskatoon), "It is paying for a high level of production, a subsidy on coal for their use. Subventions and protection, he said, were the curse of Canada."

MIGHT BE MORE
Alberta and British Columbia, with their coal mines, realized the value of subsidies, said J. H. Blackman (C.C., Lethbridge). (The coal subsidies could be increased and still be sound, he argued.

The East-West controversy was taken up by D. J. Harrigan (Lab., Cape Breton South) who declared subsidies on coal were small compared to the aid given wheat growers.

Some protection would probably have been required in Canada, said W. A. Tucker (Lib., Northern South). But the fiscal policy up to now had only benefited the central part of the country at the expense of its extremities and at the expense of agriculture in Western Canada.

This tariff protection for Eastern manufacturers had cost Saskatchewan \$24,000,000 in 1931 alone, he said. What was needed was a distributive system of the burden.

CONSOLIDATION SCHOOL AREAS FINDS FAVOR

Peace River residents would welcome a consolidation of school districts because such a reform would facilitate the work of instruction in the far-flung north, said W. M. Collins, farmer at Grande Prairie, N.S., when he moved Monday on the N.R.

"We realize that this ideal can be realized only in time, but we are looking forward to it. Even more important than the overlapping and duplication of service caused by the present system, is the fact that the efficiency of instruction is impaired by teaching numerous small classes instead of a few larger ones."

"What the district needs, too, are greater library facilities. It is rather inconvenient to have pupils rely upon the generosity of private library owners to supply them with reference books."

Elevator Agent Found Dead In Car From Fumes

REGINA, March 2.—His car stuck in a snowdrift 12 miles south of Regina, J. G. Townsend, 42, pool elevator agent at Siskiyew, died of the auto some time Sunday night of what is believed to be carbon monoxide poisoning.

His body was found Monday afternoon by his brother-in-law, E. A. Roth, Regina district farmer, huddled inside the car. An inquest will be held.

When in Ontario, Mr. Townsend came west about 13 years ago. He resided at Laidlaw and Froese before moving to Siskiyew.

Farm House Of Man Arrested In Burned

WETASKIWIN, March 2.—The farm house of E. Kren, farmer of 20 acres, who was arrested on Friday on a charge of causing bodily harm to Gus Stein, burned to the ground Saturday.

Neighbors thought the house was deliberately burned out, but police investigation does not bear this theory out.

Gus Stein is in the Royal Alexandra hospital, Edmonton, in a serious condition.

Whitehorse Slayer's Death Is Commuted
OTTAWA, March 2.—The sentence on Peder Daurstad, convicted in Whitehorse, Yukon, on March 23, had been commuted to life imprisonment.

Duncan, an Indian, was convicted of the slaying of Hector Kane, another Indian, at Champagne in the Yukon territory last year.

The cotion job was patented by Ed. Whistler in 1794.

Diplomat, Spouse

A beautiful and vivacious addition to Washington hostesses has been found in the person of charming Mme. Georges Bonnet, pictured on arrival at New York with her husband, the new French Ambassador to the United States. They were pictured on shipboard at New York before proceeding to the capital.

Daylight Dates Set
TORONTO, March 2.—Daylight saving dates were set by Toronto city council today. April 23, Torontonians will push their clocks ahead an hour. On Sept. 26, they will push them back.

Pay Increased
CLEVELAND, March 2.—Common labor rates in plants of Republic Steel Corporation and Youngstown Sheet and Tube Co., will be increased 10 cents an hour from \$3.15 to \$3.25 cents, effective March 24, both corporations announced today.

Left \$100,000
LONDON, March 2.—Lord Justice, 90-year-old widower who died in November, left \$100,000 to his secretary, Miss Mary Bertie, who acted as his house at Ford Castle for many years.

Next Stop Damascus!

CANADIAN NICKEL GOES TO SYRIA... WEALTH COMES BACK TO CANADIANS...

GLIDING DOWN from Baghdad across the Syrian desert traversed only by camel caravans since prehistoric days, comes a strange, new, rubber-tired journal of the East. Room for 34 passengers in this dreadnought of the desert. Means served in transit. Next stop Damascus, 24 hours away.

Practically the entire body of this Pullman of the plains is Nickel Alloy Steel. Silvery Mount lines its galleys. Theoretical parts of its power plant, transmission and axles also contain Nickel—Nickel from Canadian mines.

From deep in the earth's crust in the Sudbury Basin of Northern Ontario, thousands of tons of Nickel ore are hoisted to the surface daily. The giant miner nearly has grown into one of Canada's largest industrial plants. Freight trains come and go bringing timber, machinery, supplies from every corner of the Dominion.

And from the nine-acre refinery at Port Colborne, Ontario, Nickel—99% pure—is shipped to the far corners of the world following the peaceful purposes of industry. In return, money comes back to Canada to pay wages not only to those who work in the mines, smelters and refineries, but also to those Canadians who produce the steel, cut the timber, manufacture the equipment and supplies and man the railroads which feed Canada's great Nickel industry.

Growing industrial markets for Canadian Nickel throughout the world are a vital force in speeding Canadian prosperity.

LONDON SEEKS ARMED CUPID IN WAR AREA

Daughter of Lord and Colonel's Son Believed to Have Eloped

BAYONNE, France, March 2.—Flattered British consuls looked right into today for a cupid wearing a pistol, but cupid had a running start.

Bequeath owners here had Mrs. Jessica Lucy Freeman-Mitford, 19, and Edmund Romilly, 18, whom the London foreign office wants to warn not to wed, had been in Bilbao, Spain, since February 19—very much in love and full of romantic ardor.

The Romillys said it was a "romance of love and war," and that Romilly told us before he left here, they were going to marry in Bilbao. They did not know, though, whether the couple had really wed.

Miss Freeman-Mitford is the daughter of Lord Redesdale, who thought she was visiting Romilly's parents, Col. and Mrs. Bertram Romilly of Dargie. Romilly was sent to enlist in the Madrid International Brigade, is a nephew of Winston Churchill.

Roosevelt Plan On Supreme Court Finds Defender

WASHINGTON, March 2.—Harry L. Hopkins, WPA administrator, defended President Roosevelt's court reorganization plan last night with an assertion "unless the complexity of the supreme court can be changed, social legislation will be blocked by 'two or three elderly judges'."

Hardly had he concluded a speech to Senator Clark (D-Mo.) leading opposition to the plan, when he declared the contention that the people had given a mandate for the President's program. He denounced the program an effort to "stack" the United States supreme court.

OTTAWA, BERLIN SIGN ACCORD ON WARSHIP VISITS

OTTAWA, March 2.—The Canadian and German governments by an exchange of notes signed today, have agreed upon a general procedure to simplify the ceremonial relating to visits of Canadian naval vessels to German ports and German naval vessels to Canadian ports, the department of external affairs announced.

This agreement is drawn along lines of many similar agreements which have been entered into by various countries. The underlying purpose is to avoid undue delays and to reduce costs of such visits.

The announcement said that under the agreement, naval visits fall into two categories, official and unofficial.

THAW SOLVING FEED PROBLEM IN SOUTH AREA

Alberta Range Lands Feel Benefits of Warm Winter

CALGARY, March 2.—Warmer weather, spreading over southern Alberta, range lands during the last few days, brought a decided improvement in road conditions and the livestock feed situation. Under the impetus of milder temperatures, that edged up over the 40-acre mark yesterday, a rapid thaw got well under way.

The break in the long cold stretch started Sunday. Monday, March's weather followed the old proverb, "It entered like a lamb." Late in the night thermometers in Calgary and Lethbridge still stood above the freezing point.

For nearly three weeks the highways from Calgary to Medicine Hat and Lethbridge have been blocked by snow drifts. Even the drifts were thawing, appearing and it was hoped that these main trucks would be opened again within a few days.

Belief is still being shipped into railway points nearest the ranches but there is considerable difficulty in hauling it to the fields because of the road iced. The thaw, however, eased the water shortage.

PRICE BROTHERS FINANCES ARE REORGANIZED

QUERBEC, March 2.—A reorganization plan for Price Brothers and Company, involving reduction of the company's debt, was announced today. The plan was approved by the shareholders at a meeting held in the city.

After approving generally the directors' move in the proposed reorganization, the shareholders accepted the directors' resignation and elected a new board consisting of five Montrealers, three Quebecers and one from London, Eng.

Borrowing of \$15,000,000, provided for in the plan, was authorized. The \$15,000,000 will be used to pay back bonds of the company.

Over The Speaker

By E. S. WOODWARD
DESPITE reports that the budget for Friday of next week is March 12, it is more likely that it will not be introduced until March 19, assuming that the usual practice of bringing down the budget on a Friday is observed.

THE galleries were again packed Monday afternoon for the speech of Mr. Bowden, leader of the Liberal party, and Dr. Morrish, the Liberal member for Edmonton. Mr. Bowden was unfortunately suffering from the effects of a cold, and his voice lacked a little in resonance, but his speech showed a mastery of the whole range of provincial affairs and he was able to reinforce his argument by personal experience.

He faced the administration with its promise of dividend made as recently as September last and went on to state that it was in contrast to fulfillment and called upon the government to rectify it. Although Mr. Bowden's speech was delivered in excellent spirit, he was frequently interrupted by the opposition M.L.A. from whom he seemed to be drawing an interesting acrimony into the proceedings.

ONE allusion made by Mr. Bowden to the fact that he had been the premier and Mr. Maynard had said that some men were recognized for their services to the province and others because they were the cause of trouble. Mr. Bowden was expected to give them preference in the award of honours. The allusion seemed to be accepted as referring to a recent award of honours and was effective in drawing fire.

DR. MORRISH's speech was excellent in matter and delivery and was suffused with humour. He related a story on his board that he had told to the House of Commons. On the contrary said Dr. Morrish, I have found the premier usually sensitive to the breath of criticism. Despite this fact he proposed to discontinue the award of honours and to offer criticism and desired to know if the government intended to carry out his proposal. Mr. Bowden was carrying out his proposal to resign if he failed to get the support of the majority, by asking a vote of confidence from the House. The premier was given to the House and the majority people who could pass any motion.

DR. MORRISH IN AN EXCELLENT SPEECH

DR. MORRISH in an excellent speech which, in his opinion, should determine the course of the government.

The only other speech of the day was a brief one by Mr. Baker, M.L.A. for Clover Bar. He seemed to regard criticism of social credit as a necessary part of the government's policy and thought that everybody should be free to express their views on saying anything to embarrass the government.

CAUGHT a glimpse of the face of Mr. Tamm for the first time in a long time. He was back to Mr. Speaker and the press gallery. He displays a fine face and a fine figure. He is well-tanned brown skin, and some of the red hair on his head. He is a well-tanned brown skin, and some of the red hair on his head. He is a well-tanned brown skin, and some of the red hair on his head.

AMENDMENTS TO THE VEHICLES AND HIGHWAY TRAFFIC ACT

Introduced by Hon. E. C. Manning on Friday night the regulations concerning defective brakes, defective brakes, and protection of pedestrians. The effectiveness of the new regulations will depend upon the quality of the police patrol apparatus.

Police officers are given wide powers of making traffic regulations and are authorized in ordering brakes to be put in order. This would mean that any vehicle which is found to be defective in any way would be taken to a garage for repairs. This would mean that any vehicle which is found to be defective in any way would be taken to a garage for repairs.

THE DUTIES OF MOTORISTS AND CLERKS ON THE ROAD

THE duties of motorists and clerks on the road are not clearly defined in the new regulations. On paved roads the pedestrian is required to give way to vehicles. On unpaved roads the pedestrian is required to give way to vehicles. On unpaved roads the pedestrian is required to give way to vehicles.

AMENDMENT TO THE TOWN PLANNING ACT

AMENDMENT to the Town Planning Act denies the right of a municipality to acquire land consisting of more than 10 acres unless an order from the board is first obtained. The board should be given power to divide the land into lots and the division be first supplied with all available municipal services.

PEOPLE WITH PREMIER SAYS

Every Promise Will Be Fulfilled, Declares Clover Bar Member

Contending that the people of Alberta are continuing their support of the government, Mr. Bowden said that "every promise will be fulfilled." He declared that it is "men who drafted the B.N.A. Act" who are the cause of the government's success. He said that the government is the cause of the success of the people who drafted the B.N.A. Act.

ATTACKS LEAGUE

Mr. Baker attacked the recently formed "League of Women" and said that he had no hope to the young people of this province.

MORE CERTAIN

Mr. Bowden said that the government is more certain of its position than ever before.

CITY WEATHER

FORECAST MILD

After turning in two warm days, the sun popped the clouds and snow fell the night against the city. The weather is expected to be mild for the next few days.

FIRST BUTTERFLY

HERALDS SPRING?

As if the last few days haven't been enough to make the mythical man-on-the-street feel that spring is just around the corner, Bill Griffith, a member of the House of Commons, has been seen in the city.

Malcolm Macleod Dies Here Monday

Malcolm Macleod, general manager for the past 10 years of the Northern Rubber Company, died here Monday morning. He was 71 years old and had been in the city for many years.

PRAPRIE SYL APPS Continues to Top Canadian Section

Rookie Syl Apps Continues to Top Canadian Section

Young Toronto Marksman Only One Point Behind Aurie; Schriener Pressing

MONTREAL, March 2—Rookie Sylvanus Apps, Connie Smythe's candidate for the Calder Cup, is making it his race for another National Hockey League honor—the league's scoring leadership, and he's just one point away from it now.

The young Toronto Marksman Lead forward picked up two points during the week, and last night's official league statistics put him a single point behind the leading Larry Aurie of Detroit Red Wings. Aurie went pointless during the week to leave his standing at 22 goals 18 assists for a 40 total.

U.S. HOCKEY HEADS WOULD BAR CACKS

Amateurs May Be Denied Entry—Baltimore Six Is Suspended

NEW YORK, March 2—The United States Amateur Athletic Union yesterday announced its player-transfer agreement with the Canadian Amateur Hockey Association would be terminated at the end of this season, placing in jeopardy the entry of Canadian sportsmen playing in this country.

Frederick Rubien, chairman of the A.A.U. hockey committee, also announced that the United States Amateur Athletic Union of the United States Eastern Hockey Association would be suspended for the remainder of the season.

Under the agreement between the A.A.U. and C.A.H.A., to terminate the entry of Canadian players, the A.A.U. would have to grant transfers to United States teams of players who had been registered with the Canadian Amateur Hockey Association under the end of the winter. With no transfer rule to govern their entry, it appeared Canadian amateur players would be rigidly barred from the A.A.U. tournament.

GRANITE CUR PIS BREACH PEER Curling Albertans Humble Northern Ontario; Welsh Wins, 16-6

Moose Jaw, Winnipeg and Edmonton Rinks Brilliant in Victory—B.C. Loses

TORONTO, March 2—The west's curling team went on parade Monday, accurate and convincing as ever with the stones, to secure a grand slam for the prairies in the opening round of the Canadian curling championship for the Macdonald's Brier trophy.

Brilliant in victory were the rinks skipped by 37-year-old Jimmy Welsh of Winnipeg, R. Smith of Moose Jaw and Ed Macdonald of Edmonton. A fourth western rink, skipped by R. V. David of Vancouver, went down to thrilling defeat by Nova Scotia.

HIGH OFFICIAL MYSTIC SHRIN

John P. MacKay, Hamilton, Ont., Notes Increase In Externatism

Fraternism is increasing in Canada and the United States with a consequent advance in the interest taken in welfare work by all communities. John MacKay, Hamilton, Ont., Grand Monarch of the Mystic Order of the Veiled Prophets of the E. charned Realm, who arrived in Edmonton Tuesday morning, visited Deban Grotto, the local congregation of that order. This was the second time Mr. MacKay has visited Edmonton. He will stop over here Tuesday and Wednesday.

Through the depression year

through the growth of materialism caused by hard times, there has been an abatement of welfare work. This was accountable in part by the fact that governments were forced to take a greater role in the relief of suffering amongst the poor, as many who were constant helpers of the "underdog," found themselves unable to give the assistance they used to.

Today there is sweeping through the North American continent a tide of fraternalism which is reflected in the increased attendance at fraternal lodges and in the ministering to the needs of others. Throughout the land the lodges of different orders are seeking to help in civic enterprises to better the welfare of all, he stated.

United States about 30 years ago. Twenty years ago the Edmonton Grotto was formed, it being the first in Canada. Today, he said, there were five other grottos in Canada and 150 in the United States. The Realm has a population of approximately 120,000.

GUESTS OF HONOR

While in Edmonton Mr. MacKay and Mrs. MacKay, who is accompanying him on this trip,

Wednesday afternoon will be taken up with conversations with members of the Grotto here, and Wednesday evening members of the Grotto will meet their Grand Monarch at a round table discussion.

TAX PAYMENTS

**SHOW \$22,242
INCREASE 1937**

Increase of \$22,242.87 in tax collections for the first two months of this year as compared to the corresponding period in 1936 was reported Tuesday by Thomas Walker, city assessor and tax collector.

Classification of collections follows, figures for the two months of 1937 and 1936 being given in the order: Land taxes—current, \$237,647.06; 1936, \$260.84; arrears, \$134,103.13; 1936, \$134,103.13.

Northern Alberta Problems Will Be Discussed In City

Discussion of the problems of northern Alberta and the procedure

whereby Edmonton may best maintain its position as gateway to the riches of that region will feature a joint meeting Wednesday at the Hudsonia of the council of the Chamber of Commerce and the Chamber of Mines.

For some time now these two organizations have been exploring recent mining developments in the north and the effect they will have upon Edmonton. A committee has been drawn to consider the possi-

Police Court

After a series of adjournments covering more than two months Ora W. Combs was finally convicted and sentenced on a charge of theft and another of false pretences, in police court Tuesday. He was given five months with hard labor on each charge, the sentences to run concurrently.

* * *

Charge of theft against James Hall was adjourned until Wednesday.

William Murphy, who pleaded guilty to vagrancy on Saturday was remanded until 2 p.m. for sentence.

Possible plans for Edmonton's celebration of the coronation ceremonies will be discussed at meeting in the council chamber, Civic block, on Wednesday, March 10, at 8 p.m. All city organizations interested are invited to send representatives to
